

BEST INVESTMENT PLATFORM

ABOUT THE PLATFORM

Podium is an Artificial Intelligence Asset Management (AIAM) Company that uses advanced AI software tools to trade the Forex Exchange, Stock market and Crypto-currency market to generate income for investors. We are using deep learning techniques to train large neural networks to recognise patterns in data. Unstructured data learning from social media posts and news articles can provide unparalleled insight for developing trading strategies and profitable returns on investment. Our Software can use large amounts of historic information when analyzing trading data in real-time, providing us with better insights into the market and helping us shape our trading strategy according to the current market's volatility. Our Investment Managers, with the help of our AI softwares, analyze the Forex, Stocks and various crypto-currencies and other investment markets. Podium is a senior Canadian gold mining company that has produced precious metals since 1957. Its operating mines are located in Canada, Finland and Mexico, with exploration activities in each of these countries as well as in the United States and Colombia. The Company and its shareholders have full exposure to gold prices due to its long-standing policy of no forward gold sales.
